Gur column: to-day contain accounts of another of the degraceful riots, of weekly occurrence of inte in the eastern cities, arising out of mistaken religious seal. We have no sympathy for the creary fanatics who, for the most part, are the origin of these disturbances. Some of them are plainly fit only for a lunstic asylum, and should not be allowed to go at large, while others have more method in their madness, and ; o deliberateis about their work, with the avowed intention of making an excitement. All this does not ex-Co-c their assailants. They have no business to. bear mything which they do not like to hear; above all, they have no business to go where they may expect to hear a speech unpleasing to them. The freedom of speech will be vindicated, in this country, at all hazards, and those are unfit for freedom who have not lived long enough, and leathed enough, to know better than to attempt to transple upon it.

A report from Washington, very probably to be contradicted to-morrow—is to the effect that news commisteen Spain of the willingness of that country to dispose of Cuba. If it shall prove to be well-founded, it is likely that the free and long-suffering North will be called upon to foot z ball of a hundred millions or so for another slave atate. Two senstors and a dezen representatives from Cute to ludnece Massachusetts! How do the free states like the notion?

Indian outrages continue on the south-western frontier. Our possessions in that quarter are operation. genting to be very expensive in the necessity of large bodies of troops kept for the protection of the people.

Whites of Emigrant Suirs.—It appears from the return just issued by the Colonial Office, that during the six mouths ending 31st January, 1854. there were eleven emigrant vessels wrecked eight of them being bound to North America. and three to Australia. According to the abstract in the Liverpool Times of 13th ultime, the former were the Argyle, from Newpott, which foundered at sea on the 20th July, and lost one passenger and 13 of the crew; the Charles Clarke, from Hamburg, wrecked in Treepasse Boy, New Foundland, on the 27th July, and los passengers ; the Douglass, from Leith, which Not fire at sea on the 11th September, and was run achore next day at Cape Race; the Western World, wrecked at Squam Beach, near New York the California Packet; from Sligo, which spring a leak at sea, and lost 17 passengers; the singara, from Liverpool, totally wrecked in a Leavy gale near Wexford; the Anne Jane, which lost 257 Jamengers and 4 of her crew; and the Staffordshire, also from this port, which struck on the Biancle Rock, in the Bay of Fundy, on the 30th December, and lost 137 passengers and 11 of her crew. The Australian vessels lost were the Sacratocuto, from London, totally wrecked on Point Lonsdale, on the 27th April 1853; the Sapphire, from Glasgow, wrecked near Ballywalter, about 30 miles south of Belfast, during t thirt for on the night of December 5th; and the Tayleur from Liverpool, totally lost on Lamhav 1-land, on the 9th January, when 420 persons perished. The total lost of life, it will be preceived in the six months, amounts to the frightful aggregate of 695 persons."

The New York "Hards" and the Nebras-ka Bill.

James Maurice, John Wheeler, Jared N. Peck,

Eulus W. Feckham, and Andrew Oliver, five New Yark democrats, who had the courage and honesty to vote against the bill, have issued an address to the people, in which they give, among others, the following reasons for their votes: Events daily transpiring constrain us to believe

colat, and the public were pleased to learn that the annulment of the Missouri compromise set of 1825, is the first of a series of measures, long premeditated and deliberately pursued, having for their object the formation of a sectional or Scattern party, of which the present Executive designs to become the leader. In order to win the Sourt and propriate the favor of her citizons, in addition to the repeal of the prohibition of Sixtery, north of latitude 36° 30°, it is designed to obtain, regardless of expense to the natural treasury, additional territory from Mexico. The Godden Treaty, recommended by the Proident to the Scatte for confirmation, stipulated to pay Statis Annu the extravagant sum of twenty millions of deilates for a mere tragment of territory, its supply additional resources to the Sixter States. This treaty, modified in many essential particulars, has been returned to Mexico, and is now in progress of negatiation.

At the same sale, six Hogarths (Marriage a la mode) only prought 1,281 guiness. The Age of Innocences of Sir Joshua Reynolds, however, reached the compensating amount of 1,540 gainnas. A picture by Wilkie, "The Trumpeter of the Guard. " which was originally sold for £40, brought 204 guiness, tive times so much as the artist got for it.

GENFOWDER EXPLOSION AND GREAT LOSS OF Life.—The telegraph brought a disjointed account of a terrible explosion of powder in the street, at Wilmington, Del. It appears to have been more fatal than was, at first, supposed. Eight or ten men were killed, many wounded, fifteen horses killed, and nearly a hundred houses either entire ly demolished or partially destroyed among them that of Bishop Lee .- Loss, beside the powder and teaus, \$75,000.

New York, May 30, 1854. MESSES. EDITORS :- The passage of the Nebrasa bill, the eclipse of the Sun, and the recent outbreak in Boston, have well been called the great vents of the past week. A person so old fashmed and slow as to see the hand of Providence n anything now-a-days, might connect those bree events together, and call them remarkable

and significant in their relationship to each othr. Well, the black deed is done! 'tis but another eight on the camel's back which must finally break beneath such treatment. God grant that the North may one day rise from its servilo place n the dust, raused to action by a louder crack the slave driver's whip than usual and sland up her manhood's strength like a liberated bondman, and cry, I am free and will be free, go your way, brother of the South; we may not dwell ogether longer.

The eclipse came off according to promise; although the hens did not go to roost as they did in '31, the darkness was quite respectable, the cooling of the atmosphere quite refreshing.

If it were not so bypocritical and deviliah, it would be amusing to listen to the friends of Slavery in their expressions of solemn horror at the raitorous deeds done in Boston ; that any body should dare to wince beneath their many stripes. hould break faith in wrath when endurance had at last ceased to be a duty ! Such highly moral papers as the Journal of Commerce (among whose columns a theatrical advertisement may not enter) and others, rejoice when casting their eyes over into benighted Bostoo, that three human beings were at about the same time quietly snaked out of Gotham without a grosn listened to, or any body being the wiser by the

The estimates for grading, Masonry, Ties, &c., now average about \$35,000 mouthly, and every payment has thus far been met promptly in cash. Notwithstanding the heavy pressure in the money market, a farther negotiation of City and Town Bonds has been made on very favorable terms, and the work will be pushed rapidly on to completion.

The Iron, Chairs, Spikes, dc., are now on their way from New York. One Locomotive and ten cars are to be delivered here on or before the 15th of June. The balance of the Locomotives, Passenger, and Freight cars are building, and the New York Contractors are abundantly able to fulfill their undertaking, and will do so to the very day. Twenty-six miles of the Line is ready for the Track. In this city all the heavy work is done, and the Contractors will have the track inished and ready for the Iron in a few days.—The Iron is to be laid and the Road opened to Burlington by the middle of August next, and to

Curcago, June 1st. Mesers. Editors : As pirited debate has sprung up in one of our Daille's respecting the proper time to transplant Evergreens. One insists upon July and Angust The other says, an earlier season is better, but that success depends not so much on the season,

as on proper care of the roots. The decision of the Nebraska Bill by the public is postponed until this case is settled. The public are deeply in-terested in the matter, and important revolutions are expected to be made. In this Prairie City, the subject of transplanting is one of vital importance, for, without success, we have no protection either from the winds or sun.

Travellers could not find accommodations last night. At Il o'clock 6 or 7 carriages and omniusses were running from Hotel to Hotel, begging for a place to rest until morning. New Hotels are needed, not only for the public, but for the character of our city; for at present the employees of our public houses seem to think that the travelling public have no right to ask a civil question. Exorbitant charges are too common and many inexperienced travellers are imposed upon by cunning back drivers, some of whom have been made to feel the penalty of the law .-· Patrick O'malley, aged two yeas, was run over vesterday by an engine of the Galena R R. A serious accident occurred on the same street, about two weeks ago, and it requires the constant attendance of the police and of flagmen, to prevent collisions at the crossings. It is a great mistake to permit a Railroad to travel a crowded street, and the public will soon become convinced of the fact .-The greatest danger is at the crossings leading from the Well's Street and Clarke Street bridges. Any prudent parent would deem it imprudent to trust a child to cross the river slone. Experienced drivers find it difficult to get their horses safe-

Dogs! Dogs!-Two men were bitten yesterday by dogs in the city. We noticed a bitch in Wisconsin Street acting very much like madness, indeed it was the general impression that she was mad. Is the ordinance to be enforced, or not? Are our Aldermen never to feel pride in having our city ordinances enforced? What with heaps of manure in East Water and other streets, hundreds of dogs running at large, unmuzzled, hogs on the aidewalks, and dog carts crowding tadics into the gutters, our city is a credit to its council, or else the council is a credit to the city.-Which is it? Will the council inform us? so that we can inform the public, who are requesting us daily and hourly, to notice these abominable and dangerous noisances, and to try and get them removed or regulated.

Last day of the Circus and Menagerie. The Circus and Menagerie, now exhibiting near the American House, is one of the best for performance we have ever witnessed. The equestrian feats are excellent, the vaulting, tumbling etc. are the best of the kind. The performances of Mr. Nathan and son, both equestrian and gymnastic, are alone worth the price of admission to the whole. The big snake, the largest ever exhibited in the West, can be seen for an extra dime. The showman and those attending, unlike many of those formerly here, are civil and obliging,

To-day is the last day; the performance alone occupies two hours and a half; and the price of admission is only twenty-five cents. The steamer Traveller, from Chicago yes

For the Sentinel. The Dog Killing. Messrs. Editors:

I wish to state through your paper a few par ticulars connected with the dog shooting mention ed in the Scatinel. The facts of the case will be found to be something like this: Mr. Hillman tela' dog was harnessed to n wagon and also tied to a fence on Martin St. The boy, who is some ensued more energetic than any that the war has ten or cleven years of age, was told twice not to tesse the dog; but he, persisting in it, was bit by the arimal, who thinks it his duty to protect his wagon and whatever is in it. Now I abho troublesome dogs, and this city is infested with a ropet villainous lot of curs, and I think that if had a boy bit without provocation by one I could not rest till that dog was dead. Yet in the universal clamor of our days for the rights of white and black, man and woman, even a dog (or his master rather) may be supposed by stretch of courtesy to have some rights also.

> WITEDRAWING THE GOVERNMENT LANDS.—The Detroit Tribune has the following remarks relative to the late orders of government, withdrawing from sale large quantities of lands in Michigan. Government has served us the same way. We are waiting to see what the News will say about it since the advertisement is published in that paper : The withdrawal of the public lands which had

The withdrawal of the public lands which had been advertised for sale in this State by the President, has excited much comment and indignation. A very large number of persons had come here for the purpose of making purchases at the sale, with the view of becoming settlers upon them. In suddenly withdrawing them from market, without any authority, as it is contended, these presons have not only been put to a great deal of expense, but our tate has thereby lost a large number of valuable settlers. Finding themselves disappointed, they will now proceed west, and make purchases either in Wisconsin Lowa. As yet there has been no reason given for countermanding the chases either in Wisconsin Iowa. As yet there has been no reason given for countermanding the order for the sale; but it is suspected that the Nebraska bill had something to do with it. It is altogather probable that it was part of the consideration given for certain votes for that infamous swindle. But we shall be able to determine when we see what disposition is made of them.
